

Effective Teaching Program

TARGET AUDIENCE

The Effective Teaching Program is a 6 hour per day program, for 5 days. The program can be refashioned to fit a 3-day duration, by minimizing some of the content. ETP will benefit practicing teachers who might be engaged at any level of school teaching from foundational years to secondary years. It can also benefit individuals who aspire to become teachers.

KEY PROGRAM TAKEAWAYS

A. Organizing teaching into a teaching-learning cycle

- What to teach > How to teach > How do we know whether our students have achieved learning outcomes.

B. Understanding 'What' as concepts & skills

- Understanding how the NCF 2023 deals with competencies (learning outcomes)

C. Understanding 'How' as effective pedagogy

Organising effective teaching keeping in mind:

- The brain and learning
- Motivation and student learning
- Significant differences amongst students that must inform our pedagogy

D. Absorbing and demonstrating effective teaching strategies

- Activating prior knowledge

- Top 6 graphic organizers
- Building student vocabulary
- Collaborative strategies of reciprocal & jig-saw reading
- Summarizing & note taking
- Project based learning

E. Understanding 'Whether' as assessment

- Idea of formative & summative assessment
- Tools of authentic assessment such as: rating scales, check lists, observation records, portfolio
- Understanding and developing rubrics
- Idea of differentiated assessment

F. Bringing all the above together into unit plans and lesson plans

G. Strategy for helping students become 'Independent learners'
